[linkedin.com/in/nissimram](https://www.linkedin.com/in/nissimram)

Skills: JavaScript, React, Node, Next, Express, HTML5, CSS3, Material UI, Figma, Google Cloud, Azure, PostGreSQL, Java, Spring, SpringBoot, Maven, Eclipse, Git, GitHub

Experience

Common Threads Project

Software Developer | 06/21 – present

- Analyzed donation intake system and took feedback from admins for possible improvements.
- Designed system workflow to automate the intake process for org director.
- Built Node app to run daily queries for new donations, update org databases, and send dynamic thank you emails.
- Created employee-facing multi-form React app to assist with thank you email generation derived from mailed checks.

Cook Systems

FastTrack Developer Graduate | 06/22 – 08/22

- Collaborated with other engineers to build applications during simulated Agile sprints (React frontend, Java SpringBoot backend).
- Team lead for building out and testing backend endpoints for a Twitter API clone in Java.
- Contributed to the functionality of a full stack company dashboard React app where administrators login to create teams, projects, and announcements.

Nissimram.com

Freelance Developer | 03/20 – 06/21

- Designed, built, and deployed multiple full-stack React apps using responsive CSS. Projects showcase data visualization, API integration, and web scraping. Documented production process through blog posts I wrote to log my coding journey.

Fragomen LLP

Assistant Immigration Paralegal | 11/18 – 03/20

- Liaised with foreign nationals and processed high volume of immigrant visa applications. Ensured positive client relations by promptly communicating with and provide support for client HR representatives and foreign national employees.

Education: B.A in History and Anthropology from Brandeis University | Class of 2018
