Skills: JavaScript, React, Node, TypeScript, Next, Express, HTML5, CSS3, SASS, Chakra UI, Bootstrap, Figma, Google Cloud, Azures, Sanity CMS, Firebase, Git, GitHub

Client Work

3:5Creative[s], Web Developer Intern | 01/23 – present

- Built out full websites for company clients based on wireframes from design team.
- Responded to client and designer feedback to iterate and improve wireframe implementation.

Software Consultant with Common Threads Project | 06/21 – 01/23

- Plotted workflow to automate online donation intake process for org director.
- Built Node app to run daily queries for new donations, update org database, and send dynamic thank you emails.
- Created employee-facing multi-form React app to assist with thank you email generation to handle mailed checks.

Web Developer with UC San Diego Design Department | 09/22 – present

- Prototyped and implemented an interactive lesson application for an online design textbook using React and Sanity CMS
- Implemented accessibility best practices according to W3C guidelines

Nissimram.com

Freelance Developer | 03/20 – 06/21

- Designed, built, and deployed multiple full-stack React apps using responsive CSS. Projects showcase data visualization, authentication, API integration, and web scraping. Documented production process through blog posts I wrote to log my coding journey.

Fragomen LLP

Assistant Immigration Paralegal | 11/18 – 03/20

- Liaised with foreign nationals and processed high volume of immigrant visa applications. Ensured positive client relations by promptly communicating with and provide support for client HR representatives and foreign national employees.

Education: B.A in History and Anthropology from Brandeis University | Class of 2018

FastTrack Developer Graduate – Java Concentration | 06/22 – 08/22
